They are asking for \$1,400. from Mount Joy Township towards the engineering work that needs to be completed. The County will put in approximately \$30,000. towards the plan. The Townships' share is calculated based on .50 per capita tax. They need to know by January 13 if we are going to put the funds in.

Old Business:

Fuel Tanks - Contamination is minor. DER isn't concerned about the amount of contamination. A backhoe will be coming in to remove more of the earth. There will be approximately 10 tons of earth to dispose of, which will be hauled to Finksburg or Halifax for disposal.

Miller/Dayhoff Zoning request - The Supervisors would like to meet with Dave Humphrey from Urban Research for his input from the hearing before making a decision. They would also like a chance to review the transcript from the hearing. A decision should be able to be made at the December 10 meeting.

Floor:

Nancy Smith-Taylor - Is anything being done about Route 97/15 problem now that we know where PennDot stands on the SAMI plan? The county had indicated in the past that they would help with some funding and the Township has put funds in the 1993 budget for this work. The Supervisors need to meet with County and State Officials to find out exactly who will pay for what before the next meeting on December 10. They will report their findings at that time.
